## SMOKING POLICY

### SMOKING DURING SCHOOL HOURS

In terms of the Occupational Health, Safety and Welfare Act smoking is prohibited on school grounds during times that children are in attendance;

- At school
- At Before School, After School and Vacation Care Programs
- School Sleepovers

### AFTER SCHOOL HOURS EVENTS

While smoking is discouraged at after school hours social events, sporting events and for hirers using school facilities, when adults and children are present, we realise that many adults chose to smoke in the course of their social life.

In this case, because we are acting as role models for children, smokers are required to

- Not smoke within 5 metres of a doorway
- Take their butts off the premises or place them in bins provided for that purpose.
